# PANORAMA WINDOW® MICOM WATER BOILER & WARMER CD-LFC30/40/50

## QUICK TEMP MODE

Quick Temp mode can reach your desired temperature fast and accurately.

Quick Temp mode is an optional setting on Zojirushi's water boilers that saves both energy and time. The water will reach the selected Keep Warm temperature directly without reaching a boil, reducing steam and energy use at the same time. This setting is perfect for brewing teas that require specific temperatures.

### BENEFITS OF QUICK TEMP MODE:

- ✓ Saves time
- ✓ Saves energy
- ✓ Reduces steam

### Panorama Window® Micom Water Boiler & Warmer (CD-LFC50)

\*Time estimate to reach at full capacity, ambient temperature 73°F (23°C)  
Time varies depending on the model you have

## KEEP WARM TEMPERATURE SETTINGS
