

Revolutionary Design
TWO Ultra-Precision Inlet Valves
and Water Level Sensor System provide
unsurpassed tea flavor.

CBS10000 - ComboBrew System

(Shown with standard TCO Oval Tea Dispenser [L];
ThermoPro TLXP19 Pour Pot [C];
and TLXA22 Airpot Coffee Dispenser [R]).

The Curtis GT ComboBrew. Your SINGLE, simple brewing solution for flavorful iced tea and gourmet coffee!

Now you can brew crystal clear iced tea AND rich, robust coffee from the same precision system. With a simple change of brewing vessel and brew cone the new Curtis G3 ComboBrew provide you that and a whole lot more.

At the center of the ComboBrew is Curtis' exclusive G3 Universal Control Module. This sophisticated digital "brain" provides precision control over the entire brewing and operating process. Its pre-programmed factory settings deliver ideal results right out of the carton. Simply add bulk tea leaves, flow-thru filter packs or ground coffee, then press the clearly marked brew button for gallons of cool, flavorful iced tea or rich coffee in just minutes.

With the Curtis ComboBrew, quality coffee brewing is not an afterthought... the system has been engineered to provide the same gourmet brewing features as our G3 Airpot system.

FEATURES AT A GLANCE

- **G3 Digital Control Module (G3/Technology)**
Provides precise control over all functions.
- **Curtis' Exclusive G3 3-Year Warranty** –
Protects your digital investment.
- **Intuitive Scroll-Through Precision Programming** – Large display communicates functions at a glance. Easily adjust time, volume, temperature, brew functions and more.
- **Easy-to-Operate** – Simple graphic design with color-coded buttons for all operating functions.
- **Saves Operating Costs** – Energy Save mode automatically activates when brewer is idle.
- **On-Board Self Diagnostics Reduce Downtime** – Continual sensing of proper operation. A Service Phone Number and error code will be displayed in the rare event assistance is required.
- **Programmable Display Banner** – Can be set to display your operation's name and message.
- **Standard 120VAC Operation**

ICED TEA BREWING FEATURES

- **Factory Set Iced Tea Recipes... Regular and Tropical** – For out-of-the-box operation.
- **G3 Enhanced Tea Flavor & Clarity** – Two separate precision valves provide unsurpassed control over concentrate brewing and dilution cycles.
- **Automatic Brew Lock-Out Switch for Enhanced Safety** – Tea brewing is only allowed when TCO Dispenser is detected in place.
- **Cold Water Brew Lock-Out** – Prevents brewing when water temperature is below set level.
- **Colorful "Iced Tea" Merchandising Graphics**

COFFEE BREWING FEATURES

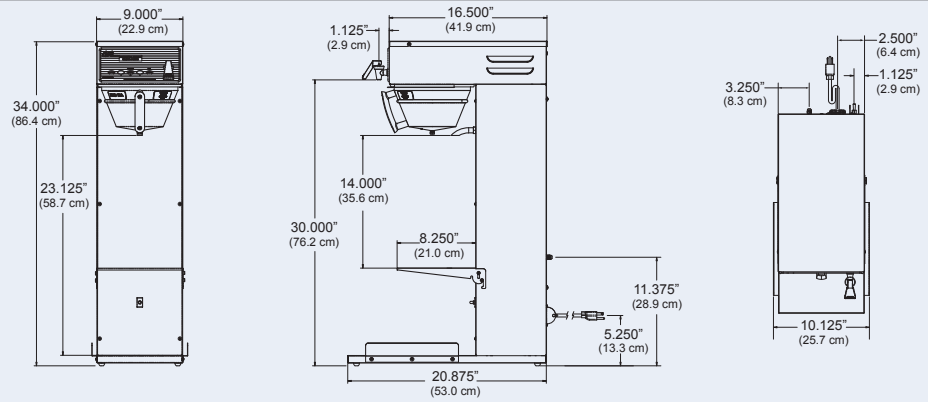

- **Gourmet Fine Tuning Brewing Modes** – Pre-infusion or pulse brew enhances extraction of gourmet coffee flavor.
- **Adjustable Shelf** – Accommodates brewing into smaller airpots and other service vessels.
