

## SSDC Filter Pouch Cleaner

### KEEP YOUR COFFEE AND TEA BEVERAGES TASTING GREAT.

After only one day of not properly cleaning your coffee and tea equipment, oils can begin to accumulate, go rancid, turn black and affect the quality of your beverages. Using SSDC Filter Pouch Cleaner daily will help keep your coffee and tea beverages tasting their best. The convenient, easy-to-use pouch reduces the effort needed to keep your coffee pots sparkling and your brewing equipment in top work order.

- Easy-to-use, single-dose packet
- Phosphate free, non-corrosive, global formula
- Patented cleaning pouch technology

#### **Applications:**

Brew Baskets  
Urns  
Sight Glass  
Faucets

#### **CLEAN WITH LESS EFFORT!**

- Reduces labor due to less scrubbing required
- Safe on all glass, plastic and stainless steel servers
- Requires No PPE

## SSDC Filter Pouch Cleaner

Case Pack:

Item #1112167

0.6 oz - 4 x 24 pouches

Cleaning Frequency: Daily

### Use Directions for Coffee Pots/Decanters\*:

- Keep the Filter Pouch Cleaner stored in the zip lock bag.
- Before using the Filter Pouch, dump coffee grounds from the brew basket and empty the coffee from the pot.
- Place the Filter Pouch in the brew basket, and insert it in the coffee brewer; place the pot under the brew basket and set/press the brew switch to brew a full pot of cleaner.
- When the brewing cycle is complete, dump the used Filter Pouch in the trash and rinse and sanitize the brew basket at the 3-compartment sink. Allow to air dry.
- Leave the cleaner in the coffee pot for 10 minutes and then discard the cleaner.
- For glass coffee pots, the cleaner may be used to clean as many as 3 pots before it must be discarded. Simply pour the cleaner from pot to pot. (Note: For steel pots, a high soil load may require fresh, hot cleaning solution)
- Rinse and sanitize all pots at the 3-compartment sink. Allow to air dry.
- Wipe the brewer spray head coffee unit and surrounding areas with a clean damp cloth and approved multi-purpose cleaner solution.
- Return the zip lock bag to storage; the pot is now ready to use.

\* Refer to the Filter Pouch Cleaner product label for complete listing of cleaning applications and procedures.
